Profile

I'm a 35 year old web developer with mostly ASP.NET Core and Angular experience. A few years ago I started my own business, specializing in Web Development, GDPR Compliance and Digital Marketing. I've mostly developed web applications or web apis either for my own business or for various customers in .NET, .NET Core, Node.JS and Angular. I have also worked as a Freelance web developer using Wordpress and Prestashop.

I'm a strong believer in Lean software development and following S.O.L.I.D. coding principles. That is why I have adopted DDD (Domain Driven Design) and TDD (Test Driven Development) as my go to patterns.

Work Experience

Senior Developer 2019-Today
Cyberlogic

Managed various project in different stages of development
Fullstack development on a multitude of web applications
Refactoring of old projects into Domain Driven Design, along with upgrade to existing technologies and proper tests
Mentoring of junior developers

Founder & Managing Director 2018-Today
Fractal Net

GDPR Compliance consulting and .Net Core Development. I designed and developed two versions of my own CMS to compensate for the shortcomings of Wordpress. One is multilingual and one single language based. We also build custom purpose specific applications based on customer needs.

Web Developer 2016-2018
Netmechanics

ASP.Net Development on various projects, Notably:

- Azure Search integration for a multisite middleware this resulted in database query times being reduced from up to 17sec to under 100ms and vastly improved the quality of search results.
- Kraken.IO integration for a .Net Core 1.1 project
- Development of a web application middleware for CosmosSport.gr, Sneaker10, Soccer10 and SportsFactory in .Net Core 1.1
- Development of various Reports with DevExpress for .Net 4.5
- Development of internal use CRM/Task management system
- Development and Integration of an EPP client for the CRM/Task manager.
- R&D on a Microsoft Azure integrated IoT system for potentially thousands of connected devices, realtime data analysis, machine learning and report system

Web Developer 2011-2018
Freelance

Wordpress & Prestashop Development, Notably:

- 3dedge.eu - Prestashop 1.7.x & Custom Skrutz plugin
- orizontasgnosis.gr - Wordpress & Custom plugin
- pro-taseis.gr - Wordpress
- all4hotels.gr - Wordpress & Custom plugin
- novostore.gr - Prestashop 1.6.x & theme modifications
- travelhall.gr - Wordpress & Custom plugin
- michalistsotras.gr - Wordpress
- ayur.gr - Wordpress & Multiple theme modifications
